About J.E.T. Emergency Power:

Keeping critical backup systems functional in an emergency means having a reliable and instantly available backup source to power them.

The L3 solution is J.E.T. Brand Emergency Power Supplies and Power Conditioning equipment, which provide mission-critical functions for commercial,

military and special-use aircraft and enable operators to power 2 to 3 essential systems for more than an hour.

These advanced systems enable pilots to maintain radio contact and continue to navigate using MFD, GPS, VOR receiver or directional gyro.

David Clark repairs successful!

Earlier we talked about the repairs NEDAERO can perform on David Clark headsets. Now, a few months later, we can look back at a successful period. Many operators and pilots found their way to NEDAERO. We have piece parts in stock so we can reduce repair lead time to a minimum.

Make a repair enquiry at our [Customer Services department](#).
