Dear NEDAERO relation,

In this regular Newsletter we will keep you updated on our aerospace related products and service developments.

### Inventory SALE!

NEDAERO will be clearing out stock in upcoming months. We sell stock at a substantial discount ranging from helicopter windows to excess exchange parts and from starter generators to transceivers.

Selected parts are listed on our website and every month we will release new items, of course you can expect attractive promotions.

Please check our website for your bargain:

## NEDAERO: Authorized Distributor of Donaldson liquid filters

In this issue of our Newsletter we want to put our relationship with Donaldson in the spotlight.

As **Authorized Distributor** of Donaldson Liquid Filtration Systems NEDAERO plays a leading role in the distribution of filtration systems, with a specialization in military platforms and civil helicopters. With a broad knowhow of the helicopter business we can offer just what you need to supply your helicopter with the right filters.

Donaldson liquid filtration ranges in complexity – from a simple t-type manifold to a complex, multiple circuit filter manifold assembly – which may include an intricate head design, multiple filter bowls, filter elements, bypass valves, shut-off valves, check valves, fluid sampling ports, and differential pressure indicators that signal when filter replacement is required.

Donaldson offers extensive filter media technology choices for liquid filters – over 34 different formulations. These formulations enable the engineers to develop filtration systems that exceed or meet a wide variety of customer specifications. Synthetic media captures more and smaller contaminants than cellulose media. When an application requires higher efficiency filtration than

cellulose filter media can deliver, Donaldson uses synthetic media technology.

On our [website](#) you can find more information about the filtration systems of Donaldson.

### Air Intake filters: IBF

Besides Liquid Filters we also offer a broad range of high quality Donaldson Inlet Barrier Filters (IBFs) for various types of helicopters.

As Authorized Distributor we are able to offer you competitive prices and a reliable delivery.

### IBF Cleaning kit

Your Inlet Barrier Filter requires cleaning regularly. For this we have the IBF Cleaning Kit in our product range.

You can purchase the complete kit but oil and cleaner/degreaser are also available separately.

Look for the kit-contents on our website:

## Let's keep in contact!

Dear relation,

Unfortunately we still have to cope with the pandemic. Making plans for business trips to meet in person is still not recommended. However, we can meet you virtually and discuss business via video teleconference software, such as Teams, Skype etc.

Just ask your NEDAERO contactperson to set up a meeting.
